

# MATE

# FOOD SCIENCE SUMMER SCHOOL

ARE YOU READY to transcend the ordinary  
and DEFINE THE NEXT GENERATION OF NUTRITION?

This intensive program on Data-Assisted Product Development Based on Nutrition Science is designed for visionaries in agriculture, food science, and natural sciences. We bridge the gap between academic excellence, industry demands, and social reality. You can earn 5 ECTS credits while building your international professional network.

## YOUR JOURNEY INCLUDES:

### Data-Driven Mastery

Learn how data-assisted development is revolutionizing the global food market.

### Complete Product Lifecycle

From the first spark of concept development to the final sensory evaluation of a finished product.

### The Science of Nutrition

Master the latest physiological recommendations and current health-industry trends.

### Academic Excellence

Gain the foundational skills for high-impact scientific publishing.

**APPLY  
NOW**

Your future-shaping mission will take place in one of Europe's most beautiful cities, surrounded by natural wonders, at the MATE Buda Campus in Budapest, Hungary

**12-19 July, 2026**

**SAVE THE DATE!**
